Meet your providers

Rebecca Rockers, Physician

As a child, Dr. Rockers knew she was passionate about receiving her medical degree one day, as she would often practice suturing her stuffed animals and mending their imaginary ailments. She went on to complete her combined pre-med and medical education at the University of Missouri-Kansas City School of Medicine and her family medicine residency at Memorial Hospital in South Bend. She has been board certified through the American Board of Family Medicine since 2000.

Dr. Rockers enjoys enhancing the patient experience by fostering a relationship built on trust and connectivity. She believes that patient-centered primary care is vital to improving health outcomes.

Channah Klor, Family Nurse Practitioner

Channah's interest in medicine began at a young age. She would often witness her father, a physician, treat his patients and community at all hours of the day. Through her upbringing, she learned the great responsibility and satisfaction in caring for others. She completed both her undergraduate and graduate schooling at Indiana University in South Bend and worked in Memorial Hospital's neonatal intensive care unit as a registered nurse before becoming a family nurse practitioner. She previously worked as a nurse practitioner at Minute Clinic before transitioning to Everside Health.

Channah provides her patients with individualized care that focuses on both mind and body. She aims to build a trusting relationship that imparts peace of mind and an improved quality of life.
